Ethical Compliance packaging compliance scheme has committed to buying their recycling certificates known as PRNs, as defined by the Producer Responsibility Obligations (Packaging Waste) Regulations from **British Recyclers** wherever possible. This will reduce third party emissions by around 290kgCO_{2e} per tonne of waste, compared to waste that is recycled in China. For more information, please contact The GBN directly.

By joining Ethical Compliance, 'a registered scheme', **Rackham Housefloors Ltd**, 'the producer', becomes exempt from complying with the requirements of the Producer Responsibility Obligations (Packaging Waste) Regulations 2007 (as amended), as defined by regulation 5 (1) "Where a producer is a member of a registered scheme throughout a relevant year he is exempt from complying with his producer responsibility obligations for the relevant year" and Ethical Compliance assume that responsibility as defined by regulation 12 (1) "The operator of a scheme shall carry out the recovery and recycling obligations and where applicable, consumer information obligations, that every producer who is a member of the scheme that he operates would have had, but for their membership of that scheme."
